

# For SPVs

## **observe until IPO**

Establish a co-investment scheme to allow your LPs to make investments in your top businesses.

## **For your fund, a flawless co-investment solution**

Syndicate is a co-investment solution that enables you to provide your LPs and extended network with simple access to your follow-on rounds. Our end-to-end platform makes it easier than ever to manage SPV structuring and administration.

## **Persist in an agile manner**

Use your follow-on opportunities with SPVs to new heights.

To increase your returns, double down on your winners.

Several top deals generate the majority of VC returns. Participate in every round till exit and distribute carried interest to your current fund or the manager to increase your exposure to these.

## **Founders have access to capital**

Invest flexible capital into your portfolio companies to support them throughout the entire path until exit. Help them raise money in any circumstance, and increase the value of your businesses by introducing founders to your network.

## **Increase your LP sales**

When supporting a fund, LPs list co-investment opportunities as one of their top considerations.

To make follow-on and deal-by-deal investing simpler, we developed Syndicate for VC. This enhances your community, encourages network interaction, and increases investor loyalty.
